9 June 1969

MEMORANDUM FOR: Director, Central Reference Service

SUBJECT: ISG Requirements for a Machine-Based Information
Storage and Retrieval System

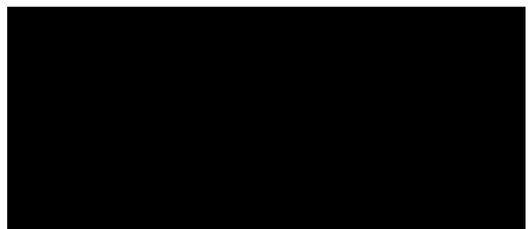

1. An initial review of the Information Services Group's immediate and long-term requirements for a machine-based information storage and retrieval system is attached.

25X1A9a 2. These requirements were prepared by Mrs. [REDACTED]
25X1A9a [REDACTED] and C/ISG. Many of the entries on the list are similar to those on the requirements list prepared in late 1968 by this office and the ISG area division chiefs.

3. Services that are currently available in toto or in part through AEGIS have been included to guide EDPSD in their final selection of the appropriate programming package. The list will be circulated to ISG division chiefs for review. Additional items may be added.

4. After SSG has reviewed the list, a meeting should be scheduled with appropriate EDPSD personnel to discuss each entry and to provide additional data.

25X1A9a

Chief, Information Services Group
